HOUSEHOLD HAZARDOUS WASTE DISPOSAL INFORMATION

Thank you for your concern about household hazardous waste. Nearly every home contains hazardous materials. A material is considered hazardous if it's:

- **Toxic** - can injure or kill if swallowed, inhaled or absorbed through the skin
- **Flammable** - may explode or ignite, even when cool
- **Corrosive** - can cause permanent tissue damage through contact
- **Irritant** - can irritate or inflame the skin, eyes, nose, throat or lungs.

How many hazardous products are in your home? Here are some of the most common:

- Kitchen: oven cleaner, drain cleaner, floor-care products
- Bathroom: toilet cleaner, polish remover, hair color, aerosol deodorant, some cosmetics, medications
- Laundry Room: detergent, chlorine bleach, spot remover, softener, spray starch
- General Household: ammonia-based cleaner, furniture polish, mothballs, some air fresheners, insecticides, flea and tick powder, metal cleaner, household batteries
- Workshop: paint, glue, varnish, paint thinner & strippers, turpentine, stains, etc.
- Garage: motor oil, gasoline, antifreeze, car batteries, lighter fluid, pool chemicals, herbicides.

The best way to get rid of many of these products is to carefully use them up as intended. If they are unusable, they should be disposed of safely. Illinois residents are invited to take advantage of one day collection events throughout the state each year, or there is a permanent Household Hazardous Waste drop off site at this location:

**Rock River Water Reclamation District
3333 Kishwaukee Street
Rockford, IL**

Phone: 815-987-5570 (City), Or: 217-785-8604 (IEPA)

**The hours of operation are Saturdays, 8:00 a.m. - 4:00 p.m. and
Sundays, noon to 4:00 p.m.**

Items such as oil based paint, thinners, solvents, oil, old gasoline, mercury thermostats & thermometers, insecticides, pesticides, herbicides, lead-acid (automotive) batteries, household and rechargeable batteries ("D" cells, 9-volt, etc.), fluorescent bulbs, used hypodermic needles (sharps must be packed in thick walled, labeled plastic bottles like detergent bottles), corrosives, oxidizers, and poisons are accepted.

Items which will not be accepted are: explosives, ammunition, radioactive materials, compressed gases, garbage, yard waste, tires, farm chemicals, or business wastes.

This Household Hazardous Waste collection site is a cooperative effort between the Illinois Environmental Protection Agency, the Rock River Water Reclamation District and the City of Rockford. It is open to Illinois residents at no charge.

Thanks for helping to protect your environment and your health!
